

S1701

POVERTY STATUS IN THE PAST 12 MONTHS

2006-2010 American Community Survey 5-Year Estimates

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, for 2010, the 2010 Census provides the official counts of the population and housing units for the nation, states, counties, cities and towns. For 2006 to 2009, the Population Estimates Program provides intercensal estimates of the population for the nation, states, and counties.

Subject	San Ildefonso Pueblo CDP, New Mexico				
	Total		Below poverty level		Percent below poverty level
	Estimate	Margin of Error	Estimate	Margin of Error	Estimate
Population for whom poverty status is determined	539	+/-112	28	+/-21	5.2%
<b>AGE</b>					
Under 18 years	147	+/-54	0	+/-127	0.0%
Related children under 18 years	147	+/-54	0	+/-127	0.0%
18 to 64 years	312	+/-81	17	+/-19	5.4%
65 years and over	80	+/-32	11	+/-10	13.8%
<b>SEX</b>					
Male	252	+/-75	2	+/-4	0.8%
Female	287	+/-64	26	+/-20	9.1%
<b>RACE AND HISPANIC OR LATINO ORIGIN</b>					
One race	514	+/-112	25	+/-21	4.9%
White	105	+/-40	0	+/-127	0.0%
Black or African American	0	+/-127	0	+/-127	-
American Indian and Alaska Native	370	+/-104	25	+/-21	6.8%
Asian	0	+/-127	0	+/-127	-
Native Hawaiian and Other Pacific Islander	2	+/-4	0	+/-127	0.0%
Some other race	37	+/-31	0	+/-127	0.0%
Two or more races	25	+/-25	3	+/-6	12.0%
Hispanic or Latino origin (of any race)	117	+/-37	3	+/-6	2.6%
White alone, not Hispanic or Latino	45	+/-27	0	+/-127	0.0%
<b>EDUCATIONAL ATTAINMENT</b>					
Population 25 years and over	372	+/-80	28	+/-21	7.5%
Less than high school graduate	50	+/-23	4	+/-6	8.0%
High school graduate (includes equivalency)	116	+/-56	11	+/-14	9.5%
Some college, associate's degree	148	+/-39	13	+/-15	8.8%
Bachelor's degree or higher	58	+/-30	0	+/-127	0.0%
<b>EMPLOYMENT STATUS</b>					
Civilian labor force 16 years and over	324	+/-85	0	+/-127	0.0%
Employed	268	+/-66	0	+/-127	0.0%
Male	144	+/-46	0	+/-127	0.0%
Female	124	+/-37	0	+/-127	0.0%
Unemployed	56	+/-46	0	+/-127	0.0%
Male	34	+/-34	0	+/-127	0.0%
Female	22	+/-21	0	+/-127	0.0%
<b>WORK EXPERIENCE</b>					

Subject	San Ildefonso Pueblo CDP, New Mexico				
	Total		Below poverty level		Percent below poverty level
	Estimate	Margin of Error	Estimate	Margin of Error	Estimate
Population 16 years and over	416	+/-90	28	+/-21	6.7%
Worked full-time, year-round in the past 12 months	198	+/-62	0	+/-127	0.0%
Worked part-time or part-year in the past 12 months	131	+/-60	0	+/-127	0.0%
Did not work	87	+/-35	28	+/-21	32.2%
All Individuals below:					
50 percent of poverty level	13	+/-15	(X)	(X)	(X)
125 percent of poverty level	59	+/-61	(X)	(X)	(X)
150 percent of poverty level	104	+/-61	(X)	(X)	(X)

Worked less than full-time, year-round in the past 12 months	+/-100.0
Did not work	+/-82.2
<b>PERCENT IMPUTED</b>	
Poverty status for individuals	(X)

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

While the 2006-2010 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

#### Explanation of Symbols:

1. An '\*\*\*' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '\*\*\*\*' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '\*\*\*\*\*' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.
